

14th Judicial District
CourTools Measure 10: Cost Per Case

Definition: The average cost of processing a single case, by case type.

Purpose: Monitoring cost per case, from year to year, provides a practical means to evaluate existing case processing practices and to improve court operations. Cost per case forges a direct connection between how much is spent and what is accomplished. This measure can be used to assess return on investment in new technologies, reengineering of business practices, staff training, or the adoption of “best practices.”
